

systems&pattern printmaking

A **system** is a set of interacting or interdependent components forming a complex/intricate whole

A **pattern** is a regularity in the world or in a manmade design. As such, the elements of a pattern repeat in a predictable manner.

where we see systems and patterns in the

- organic

systems and patterns

use your collected images
as resources to sketch.

combine natural and
manmade systems and
patterns to create
interesting designs.

think: shape, space, rhythm
and repetition, line,
proportion and scale...

fold paper into 4 and
create 8 sketches (4
sketches on each side)
